

PALLITE

PALLETS = PALLET BOXES = LAYER PADS

LIGHTWEIGHT PAPER PALLETS,
PALLET BOXES AND COMPONENTS
DESIGNED TO REDUCE THE
COST OF DELIVERY.

PALLITE® is a range of lightweight, strong and recyclable transit packaging that includes pallets, layer pads and collapsible pallet boxes. PALLITE® provides a clean, lightweight alternative to wood that is exempt from ISPM15.

PALLETS

Light and strong
with our honeycomb
cell technology

Ultra-lightweight
properties guarantee
cost savings

Super-strong
design will protect
your goods

ISPM15 exemption
means less paperwork and
no requirement for heat
treatment

The unique honeycomb design of a PALLITE® pallet transforms simple materials into a clean and lightweight alternative to wood.

All elements, from the protective deck to the pallet feet, are designed so that you can trust the strength of the pallet within your supply chain. Pallets are available in a range of sizes and can be custom-made to your specifications.

THE LIGHTNESS OF PAPER MADE STRONG BY DESIGN

REDUCE COSTS

- Reduce your air freight costs by up to £57 per pallet - PALLITE® pallets are up to 83% lighter than wooden alternatives
- ISPM15-exempt, PALLITE® pallets eliminate the cost of heat treatment
- Strong enough to hold up to 750kg in open-beam racking, PALLITE® pallets protect your stock from costly damages
- Maximise efficient use of container and vehicle capacity with bespoke pallet sizes

STRONG AND CLEAN

- Choose a bespoke pallet that will carry loads over one tonne
- Secure loads with edge protectors to minimise damage from strapping and banding

- Add a conveyor frame to ease the free movement of palletisers and automated systems
- With no splinters, nails or mould growth, PALLITE® pallets eliminate the risk of contamination
- PALLITE® pallets are ideal for pharmaceutical products and food ingredients
- Suitable for any industry looking for a cleaner, lighter, more cost-effective option

SUPPORT SUSTAINABILITY

- Made with 100% recyclable materials from sustainable sources, PALLITE® pallets help you to reduce your impact on the environment

THE LIGHTER AND CLEANER ALTERNATIVE - ROBUST AND STRONG.

A more efficient alternative to wooden pallets and crates.

“Napp Pharmaceuticals told us:

As a pharmaceutical company, our production environment called for an effective alternative to wooden pallets. We wanted to eliminate nails and splinters from our supply chain and find a pallet that was lightweight enough to distribute our products cost-effectively around the world.
